and manufactured in the U.S.A.

ST 2500 SCISSOR LIFTING TABLE

INTENDED USE:

This lift table handles power train components like engines and their transmissions, transaxle assemblies, rear ends and large electric vehicle batteries. It also serves as a work table where components can be lowered to a convenient work height for repairs.

FEATURES:

- An air/hydraulic foot operated pump includes a metered valve for safe lowering of the load.
- Provides hands free operation of the foot pump anywhere around the lift's perimeter.
- Scissors lift design provides easy 360 degree access to any component.
- Two heavy duty ratchet tie-downs are included to safely secure the load on the lift table.
- Table top height ranges from 31" to 80 ½".
- Four 8" diameter swivel caster wheels for easy maneuverability. Front wheels can be locked in position for steering. Rear wheels can be locked to prevent the lift from rolling.

SPECIFICATIONS:

Capacity:

2,500 lbs at 100 PSI

Lift Range:

31" to 80 ½"

Overall Platform Dimensions:

Height - 34 ½"; Length - 56"; Width - 31"

Saddle Tilt:
