

Wheel Alignment

WinAlign® fully integrates the functions of the console, sensors and lift into one highly-efficient alignment system. Available for cars, light-duty trucks and heavy-duty vehicles.

Alignment Lift Racks

Hunter racks are available in various types (ie, scissor, pit, four post, etc.) and sizes for cars, light-duty and heavy-duty vehicles.

Wheel Balancers

Hunter's premier wheel diagnostic machines solves vibration and drivability problems with a series of patented tools. Available for cars, light-duty trucks and heavy-duty vehicles.

Brake Lathes

Bringing machine tool precision to rotor refinishing, Hunter hub-mounted lathes increase productivity and reduce comebacks.

Tire Changers

Power and speed make these tire changers suitable for volume service of all tire and wheel combinations. Available for cars, light-duty trucks and heavy-duty vehicles.

Heavy-Duty Equipment

Hunter is the world leader in producing heavy-duty lifts, heavy-duty truck alignment machine systems, tire changers and balancers built for maximum efficiency and load capacity.

North Dakota
State Contract
#395 NASPO
CW7258

www.GovLifts.com/ND

**The North Dakota State
Contract Saves Time,
Money and Resources**

**North Dakota State Contract #395
NASPO CW7258 For Vehicle Lifts &
Related Garage Equipment**

Consider the hard dollar costs of such activities as advertising as well as the soft dollar costs associated with time spent purchasing and legal staff in the procurement process. Once all of these factors are added, the TCP (Total Cost of Procurement) can range from under \$1000 for a simple commodity purchase to many thousands of dollars for more complex RFP's. The time involved in making an award for a more complicated procurement can exceed 12 months. The North Dakota State Contract eliminates the bid process, saving time and taxpayer dollars. Every city, county, or state agency in North Dakota can use this tool to purchase Mohawk Lifts & Hunter wheel service equipment.
