

West Virginia Invests in American-Made Quality with Mohawk Lifts and Steel of West Virginia

State Contract Award Highlights Mohawk Lifts' Ongoing Commitment to American Manufacturing to Promote Economic Growth in West Virginia

AMSTERDAM, NEW YORK – April 22, 2025 - Mohawk Lifts, LLC (Mohawk), a manufacturer of vehicle lifts, is proud to announce its contract to supply vehicle lifts to government entities across the state of West Virginia. This initiative reflects a successful effort involving Steel of West Virginia, the West Virginia Purchasing Division and West Virginia Economic Development teams. Together, they have made this state-wide contract a reality, creating a lasting impact for the State of West Virginia and Huntington region.

The new contract provides state, local, school, and other public agencies across West Virginia access to high-quality American-made vehicle lifts and garage equipment at preferred pricing and terms. By sourcing high-quality steel from Steel of West Virginia, this contract supports local manufacturing, sustaining vital jobs in the Huntington area. The collaboration of Mohawk, Steel of West Virginia, West Virginia Purchasing Division, and Economic Development helps to keep jobs in the state while ensuring that public agencies have access to high-quality reliable vehicle lifts.

Steve Perlstein, President of Mohawk, said, “We are grateful to the West Virginia Purchasing Division, Economic Development, and Steel of West Virginia teams for their role in making this contract a reality. This initiative represents a win for the state of West Virginia, the Huntington community, and each public agency that may benefit from our products. Mohawk is committed to supporting American manufacturing, and we’re proud to contribute to West Virginia’s economic growth”

Mohawk looks forward to collaborating with agencies across West Virginia, providing solutions to their vehicle lift and equipment needs. Committed to American-made excellence, using steel from Steel of West Virginia, Mohawk is proud to contribute to West Virginia’s Economic Development, strengthening the states manufacturing ecosystem. The Mohawk team is eager to build lasting, mutually successful partnerships.
